Introduction

The DMS is a secure, web-based solution built with .NET 8 and Angular 18, tailored for enterprise-level document management. It supports multiple file formats, secure sharing, and cloud storage integration with AWS S3 and Cloudflare R2. With features like OCR-enabled search, document encryption, and multilingual support, the DMS is ideal for organizations seeking a robust and scalable document management solution.

Secure • Scalable • Intelligent

Secure & Scalable Enterprise Document Management

Built using the latest technologies — .NET 8 and Angular 18 — the DMS offers enterprise-grade security, document encryption, and multilingual access, making it perfect for large organizations with complex needs.

Smart Cloud Integration & Advanced Features

Integrated with AWS S3 and Cloudflare R2 for reliable cloud storage, along with OCR-based search, multi-format file handling, and secure sharing — the DMS transforms how enterprises manage their digital documents.

Company Overview

Micraft Solutions Pvt. Ltd.

Micraft Solutions Pvt. Ltd. is a forward-thinking technology company committed to delivering intelligent, scalable, and **secure** digital solutions for modern enterprises. With a strong focus on innovation, **quality**, and customer-centric design, we specialize in building cutting-edge software products across domains such as **Document Management**, **Industrial Automation**, **Smart Governance**, and **Enterprise Platforms**.

We pride ourselves on creating platforms that are not only robust and user-friendly but also secure, scalable, and future-ready — making us a trusted technology partner for government bodies, enterprises, and industrial clients across India and beyond.

Our Clients & Partners

Executive Summary

Transform Your Document Management Experience

In today's fast-paced business environment, organizations require robust, secure, and scalable document management solutions. Our Enterprise Document Management System, built on cutting-edge .NET 8 and Angular 18 technologies, delivers comprehensive document lifecycle management with enterprise-grade security and intelligent automation.

Key Value Propositions

99.9% Uptime

Cloud-native architecture ensures maximum availability

AI Intelligence

Advanced AI-powered document generation and search

Strong Security

Military-grade encryption and compliance-ready audit trails

Easy Integration

Seamless integration with existing enterprise systems

Micraft Solutions Pvt. Ltd.

Core Features & Benefits

Everything you need for modern document management

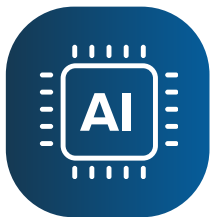

Enterprise Security & Compliance

- Role-based access control with granular permissions.
- Complete audit trail for regulatory compliance.
- Document encryption at rest and in transit.
- Digital signature capabilities with legal validity.

Cloud-Native Architecture

- AWS S3 and Cloudflare R2 integration
- Scalable storage with global accessibility
- 99.9% uptime guarantee
- Disaster recovery and backup solutions

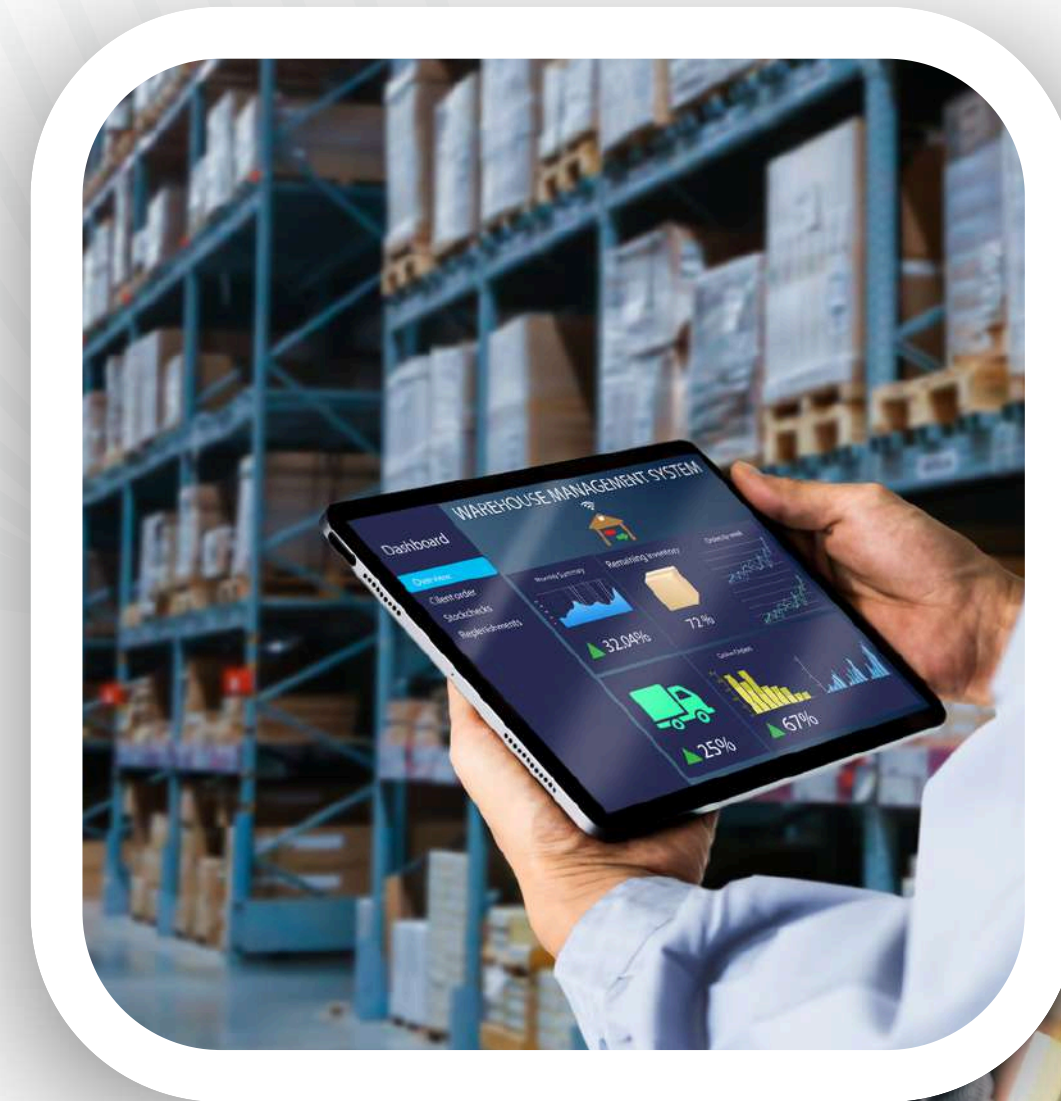

AI-Powered Intelligence

- OpenAI integration for automated document generation
- OCR-enabled intelligent search across all content
- Smart document indexing and categorization
- Automated workflow triggers and notifications

Advanced Collaboration

- Real-time document sharing and collaboration
- Version control with complete change history
- Bulk upload capabilities for large-scale migrations
- Mobile-responsive interface for anywhere access

Technical Specifications

Enterprise-grade architecture and performance

Architecture & Performance

Technology Stack	.NET 8, Angular 18
Database	Enterprise-grade HA
File Support	All major formats
Upload Capacity	Unlimited
Concurrent Users	10,000+
API Integration	RESTful APIs

Security Standards

Encryption	AES-256
Authentication	Multi-factor (MFA)
Compliance	GDPR, HIPAA, SOX
Access Control	Role-based + IP
Audit Trail	Complete logging
Backup	Automated daily

Technical Specifications

Key advantages that set us apart

Intelligent Automation

- AI-powered document generation using OpenAI
- Automated workflow routing and approvals
- Smart reminder scheduling and notifications
- Dynamic template-based content creation

Enterprise-Grade Reliability

- Chunk upload technology for large files (2GB+)
- Real-time synchronization across all devices
- Automatic failover and redundancy
- 24/7 monitoring and support

Seamless Integration

- API-first architecture for easy integration
- Support for existing enterprise systems
- Custom connector development
- Migration tools for legacy systems

Advanced Search & Discovery

- OCR-enabled full-text search
- Metadata-based filtering and categorization
- Instant results with highlighted matching terms
- AI-powered content recommendations

Use Cases & Success Stories

Industry Applications -
Tailored solutions for every sector

Healthcare

- ✓ Patient record management
- ✓ HIPAA-compliant document sharing
- ✓ Medical report automation
- ✓ Secure external collaborations

Financial Services

- ✓ Regulatory compliance document management
- ✓ Secure client document sharing
- ✓ Automated report generation
- ✓ Audit trail maintenance

Legal

- ✓ Case file management
- ✓ Contract lifecycle management
- ✓ Secure client portals
- ✓ Legal document automation

Manufacturing

- ✓ Quality documentation management
- ✓ Supplier document collaboration
- ✓ Technical specification sharing
- ✓ Compliance documentation

Implementation & ROI

Fast deployment with measurable results

Implementation Timeline

System setup and configuration

Week 1-2

Week 3-4

Data migration and integration

User training and testing

Week 5-6

Week 7-8

Go-live and optimization

Return on Investment

60%

Decrease in Implementation Timeline

40%

Increase in Collaboration efficiency

80%

Reduction in Manual processing

50%

Decrease in Compliance costs

PRICING OPTIONS

Flexible Subscription

- Pay-as-you-go model with monthly or annual billing
- Ideal for growing businesses

Scalable User Tiers

- Pricing based on number of users or storage
- Upgrade anytime as your team grows

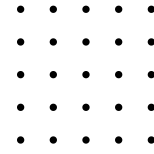

Custom Enterprise Packages

- Tailored solutions for large-scale organizations
- Includes priority support, dedicated account manager, and integration services

ROI-Driven

- Achieve return on investment within 6 months
- Lower operational costs and boost productivity

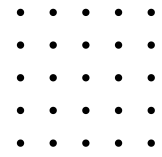

Next Step to Get Started

Take the first step toward smarter document management
with Micraft Solutions:

Next Steps:

- Schedule a personalized demo
- Free 8-day trial for your organization
- Custom needs assessment
- Implementation roadmap development
